FOR IMMEDIATE RELEASE

(CONTACT: Ron Klassen, CCP, CAPS, President, 262.754.3770 [Ron.Klassen@wallner-builders.com](mailto:Ron.Klassen@wallner-builders.com))

***“CERTIFIED CONSTRUCTION PROFESSIONAL”***

*Wallner Builders is pleased to announce that Ron Klassen, president and owner, has completed the Certified Construction Professional (CCP) program. The certification program was instituted and is administered by the MBA (Metropolitan Builders Association of Greater Milwaukee). The CCP certification provides a means for builders and remodelers to demonstrate a commitment to excellence. MBA Executive Director Matt Moroney stated,*

***“The public is asking for businesses that display a commitment to professionalism and education. The MBA’s [CCP] certification program is designed to allow MBA members to display their commitment to professionalism and continuing education.”***

*To gain CCP certification, MBA members must complete more than thirty hours of course work in multiple fields of study – Building Science, Better Business, Safety, Sales and Marketing, and Land Development. To maintain the certification, members must attend an average of six to ten hours of classes each year.*

*Through certifications such as the CCP, Wallner Builders reaffirms its commitment to the ongoing education and improvement of its personnel. This commitment allows Wallner Builders to continue to provide its clients with top-caliber service in all aspects of the remodeling process.*

*Ron was among the first to achieve the CCP Certification, and was officially recognized at the MBA’s general membership meeting October 28, 2004.*
